## CULTURE CANCER CARING

### Inspiring stories for our mob

The Aboriginal Health & Medical Research Council of NSW (AH&MRC) is proud to present a collection of inspirational stories to highlight the great work in local communities to reduce the impact of cancer in NSW.

This 18 page booklet, "Culture, Cancer, Caring – Inspiring Stories for our Mob", highlights the innovative and locally-designed activities of Aboriginal Health Workers, Aboriginal Community Controlled Health Services and other health services to reduce the burden of cancer on Aboriginal people.

You will read about the experiences of Aboriginal people in developing these initiatives, as well as some practical solutions for individuals, health professionals and organisations wanting to improve cancer support services within their own community.
